

Capital Dynamics Develops Customized Clean Energy Solution For Swiss Institutional Investors

- *PROMEA Pensionskasse invests CHF 20m seed capital into Swiss Franc-hedged Capital Dynamics investment solution*
- *The CHF 20m investment is estimated to avoid 10,693 tCO₂e per year¹*

Zug, 10 September 2025 - Capital Dynamics, an independent global private asset management firm headquartered in Zug, Switzerland, announces the launch of a customized clean energy investment solution for Swiss institutional investors.

Leading pension fund, PROMEA Pensionskasse, has provided CHF 20m in seed capital to the new solution. Through this investment, it is estimated that PROMEA Pensionskasse's holding will produce 65.6 GWh of clean energy per year, enough to power around 7,557 households and avoid approximately 10,693 tCO₂e¹.

In response to client demand, the solution provides seamless access to Capital Dynamics' Clean Energy platform for Swiss investors seeking financial performance and tangible social and environmental benefits. The vehicle offers investors easy access to attractive European renewable energy projects that are driving the energy transition, via a Swiss-Franc hedged vehicle and at the same time strengthen Europe's energy security

As a leading manager in European renewable energy, Capital Dynamics' Clean Energy platform focuses on projects in the UK, Spain, Italy, Germany, and Ireland. The team brings over a decade of experience in successfully transforming greenfield solar PV and onshore wind assets in key European markets into contracted, de-risked, and cash-generating portfolios, whilst incorporating battery storage and smart grid technology to support renewables integration. The platform is aligned with EU Taxonomy and is classified as SFDR Article 9.

Commenting on the launch of the solution, Klaus Gierling, Senior Managing Director, Head of Business Development DACH, said: "Our latest offering has been developed directly in response to client demand and is tailored specifically to the needs of Swiss institutional investors, offering ease of access to our clean energy platform that is leading the transition to a low-carbon economy in Europe.

"We are delighted to launch our new solution alongside our partners, PROMEA Pensionskasse. Both firms are fully committed to accelerating the transition to renewables and delivering real environmental impact within Europe."

Ricardo Garcia, CEO of PROMEA Sozialversicherungen: "This solution allows us to compensate any carbon footprint from our real estate holdings, which we cannot eliminate by our own technical efforts. In addition, we expect to deliver attractive risk-adjusted returns for our stakeholders with this solution."

Dario Bertagna, Senior Managing Director, Co-Head of Clean Energy, added: "We put performance and purpose at the centre of everything we do, and our strategy plays an increasingly important role in the European energy transition. We are very pleased that PROMEA Pensionskasse has placed their trust in us to transform Europe's energy infrastructure and drive a more sustainable future."

¹ Figures are based on existing investments as at 26 August 2025. Generation figures are based on P50 estimates and refer to projected annual output and the investor share is computed based on the current fund size. No investments are currently operational. Household numbers are illustrative only.
